

### Getting Started

Intro to topic, no matter how much money

trying out the notes section

### Water First!

Adults can live for months without food, but we can only live about 3 days without water or other liquids. Children, the elderly, the very active, and people living in hot climates may need water more quickly.

### How Much Water Do You Need?

The minimum amounts recommended by the U.S. government FEMA are zzz per person per day. That allows for drinking, cooking zzz

### WATER: What to Do

Estimate how much water you have in your home: hot water heater, bottles or jugs of water, hot tub, etc.
