, s i	start REPL
, e b	eval buffer
, g g	jump to definition
sesman-link-with-project	add a project to the current session (REPL)

Org Mode

, T T	Toggle Todo
-------	-------------

Project

SPC p [r f]	[recent file]
SPC p [! &]	[exec async] command
SPC p p	change project
SPC p t	NeoTree

Navigation

Selection

SPC [v V r]	region [expand contract reset]
v i i	region by indentation

Formatting

SPC j k	indent next line
SPC j =	indent file

Text Objects

w W	word
s	sentence
p	paragraph
t	tag
b	block (s-exp)
i	same indentation
f	form

Movement

' '	back to last position
: n ENTER	goto line <i>n</i>

Zooming

SPC z x [+ - 0]	[bigger smaller reset] font
-----------------	-----------------------------

Searching

SPC t h	toggle automatic symbol highlight
a	highlight

Windows

SPC w x	close window and buffer
SPC w m	maximize
SPC w C	close other
SPC w [- /]	split [horizontal vertical]
SPC w w	cycle
SPC w [h l k j]	switch to [left right up down]

Buffers

SPC TAB	switch to alternate
SPC b k	kill
SPC b [n p]	[next previous]
SPC b s	<i>scratch</i>

Files

SPC f S	save all
SPC f E	open with <i>sudo</i>
SPC f o	open with default app
SPC f R	rename
SPC f d	delete
SPC f t	NeoTree

Help

SPC ?	bindings and commands
-------	-----------------------

Spacemacs

SPC f e d	open <i>.spacemacs</i>
SPC SPC	execute emacs command

Magit

, ,	submit commit message
-----	-----------------------

Ctrl + o	Jump Back
SPC j i	jump to a definition in buffer
SPC j I	jump to a definition any buffer
SPC f b	open bookmarks
SPC s s	search in buffer
SPC /	search in project
