

### Help

man	an interface to the on-line reference manuals
apropos	search the manual page names and descriptions (man -k)
whatis	display manual page descriptions (man -f)
info	read info documents
help	shell help
konqueror	browse man and info thanks to kio

### Administration

chroot	run command or interactive shell with special root directory
su	change user id or become superuser
sudo	execute a command as another user
runcon	run command with specified security context (selinux)
chcon	change file security context (selinux)

### Kernel

insmod	simple program to insert a module into the linux kernel
lsmod	program to show the status of modules in the linux kernel
modinfo	program to show information about a linux kernel module
modprobe	program to add and remove modules from the linux kernel
rmmod	simple program to remove a module from the linux kernel
depmod	program to generate module-s.dep and map files

### System

uptime	view the system load and tell how long it has been running
uname	print system/kernel information
arch	print machine hardware name (same as uname -m)
hostid	print the numeric identifier for the current host
lsb_release	print distribution-specific information
nproc	print the number of processing units available
free	display amount of free/used/swap memory in the system
vmstat	report virtual memory statistics
iostat	report central processing unit (cpu) statistics and input/output statistics for devices, partitions and network filesystems (nfs)
mpstat	report processors related statistics
initctl	upstart service configuration
start	init daemon control tool
stop	init daemon control tool
status	init daemon control tool
chkconfig	enable or disable system services
service	run a system v init script
sysv-rc-conf	run-level configuration for sysv like init script links
runlevel	output previous and current runlevel
telinit	change system runlevel
halt	reboot or stop the system
reboot	reboot or stop the system
shutdown	shutdown or restart the system

### System (cont)

sysctl	configure kernel parameters at runtime
