

Declaring an Array (two ways)

```
$car_makes = array( "Ford", "VW", "Subaru");  
$car_models = ["Focus", "Jeetta", "Miat"];
```

Indexed Array

```
$car_models = ["Focus", "Jeetta", "Miat"];  
$car_models[1] // returns "Jeetta"
```

Associative Array

```
$car_models = [  
    "model" => "Volksvagen",  
    "make" => "Passat",  
    "year" => 2013  
];  
$car_models["make"] // returns "Passat"
```
