

PEP8

- Use 4 spaces per indentation level.
- Separate top-level function and class definitions with two blank lines
- Method definitions inside a class are separated by a single blank line.

Imports Order

1. Standard library imports.
2. Imports from core Django.
3. Imports from third-party apps including those unrelated to Django.
4. Imports from the apps that you created as part of your Django project.

urls.py

```

underscores = url(regex='^add/$',
                    view=views.add_topping,
                    name='add_topping'),
    
```

*_tags.py

```
<app name>_tags.py
```
